

§ 211.7 Rights which may be granted by Division and District Engineers.

(a) *Authority of Division and District Engineers.* Division Engineers, the President of the Mississippi River Commission, and District Engineers of districts to which real estate functions have been or may be assigned are authorized to lease, in the name of and by authority of the Secretary of the Army, lands of the United States and improvements thereon, acquired for reservoirs for navigation and flood control, subject to the prior approval of the Chief of Engineers. Recommendations of District Engineers will be considered by Division Engineers and the President of the Mississippi River Commission in granting leases and District Engineers will administer the provisions of the leases, including the collection and deposit of payments.

§ 211.8 Limitations on rights which may be granted.

(a) *Advertising.* It is the policy to grant leases to the highest responsible bidders after advertising, where competition is practicable. Advertising consists of the circularization of notices among former owners of the land, owners of adjacent lands, and others known to be interested and by the posting of notices in public places, and publication of notices in newspapers where such publication is deemed advisable. Exceptions have been made to this policy in favor of former owners in granting leases for agricultural and grazing purposes in reservoir areas.

(b) *Consideration.* Title 10 U.S.C. 2667 provides that notwithstanding section 321 of the act of June 30, 1932 (47 Stat. 412; 40 U.S.C. 303b) or any other provision of law, any such lease may provide for the maintenance, protection, repair, or restoration by the lessee, of the property leased or of the entire unit or installation where a substantial part thereof is leased, as a part or all of the consideration for the lease of such property. The consideration will be adequate but may consist of money and/or maintenance, protection, repair, or restoration by the lessee, of the property leased.

(c) *Consideration in easements and licenses.* In order to fully protect the interests of the United States, the Sec-

retary of the Army will not, without substantial compensation grant to non-government agencies, for the purpose of private profit, valuable rights in Government property. A fair charge will be made for such privileges, the amount to be determined by all the circumstances surrounding the case, including an estimate as to what private interest in the vicinity would charge for a similar privilege.

§ 211.9 Applications for leases, easements, licenses, and permits.

Applications for use of Civil Works property should be made to the District Engineer of the district within the boundaries of which the real estate is located. The District Engineer will determine whether the property will be required for public use during the period of the contemplated grant and whether the requested grant will interfere with any operations of the United States.
